

Takaya: Learning English / is difficult for me / these days. // Especially, memorizing new words/ is very difficult. //

Maki: How do you usually memorize them? //

T: Well, / I make a word list, / look at it, / and recall the meaning of each word. //

M: Don't you read the list aloud? /

T: No, / I just read it silently. //

M: That's the problem. // You should read it aloud. // Reading aloud is very effective / for learning English. // I learned this / from Professor Kawashima's book. // You should come with me to his lecture / and learn about the effects / of reading aloud. //
