

Lesson 7 Lessons from History of Easter Island —Mistakes We Should Not Repeat

No other place I have visited
 has made such an impression on me
 as Rano Raraku,
 the volcanic crater that served as the
 quarry
 where Easter Island's enormous stone
 statues were carved.

Perhaps you have heard of Easter Island.

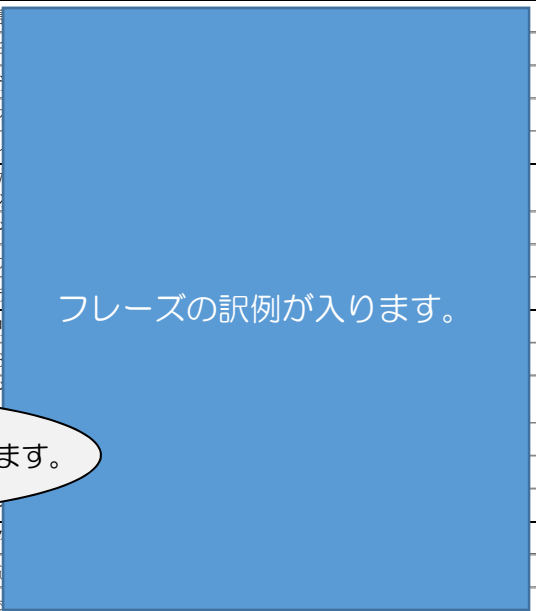

It is the world's most remote habitable
 land,
 lying far out in the Pacific Ocean,
 2,300 miles west of the coast of Chile.

Scattered over the crater's walls

Lesson 7 Lessons from History of Easter Island —Mistakes We Should Not Repeat	
1	No other place I have visited has made such an impression on me as Rano Raraku, the volcanic crater that served as the quarry where Easter Island's enormous stone statues were carved.
2	Perhaps you have heard of Easter Island. It is the world's most remote habitable land, lying far out in the Pacific Ocean, 2,300 miles west of the coast of Chile.
3	Scattered over the crater's walls are 397 stone statues, each representing a long-eared head The largest is (taller than the and they weigh from 10 to 270
4	There are 97 other statues scattered along the roads, as if abandoned,
