

Final Task

1 There are various problems caused by population growth, as summarized below. Think about the SDGs in relation to the problems of population growth, and answer the following questions.

Problems

- food insecurity
- inadequate sanitation
- insufficient water supplies
- insufficient housing
- environmental issues

10 (1) Choose one of the SDGs related to population growth.

Goal () : ()

(2) How is the goal you chose related to the problems above?

(3) Visit the UN website and write down the problems and targets listed on the site.

Problems:

15 Targets:

2 As a group, find out what some countries and cities are doing to help achieve their goals, and summarize them in the boxes below.

The country's (city's) name:

Efforts:

20 **3** Give a group presentation based on **2** to the class.
